

How to sign up and sign in to ChatGPT using an NTC email

Step 1: Go to the [ChatGPT website](#)

- [Click here](#) to launch the ChatGPT website.

Step 2: Click the sign up button

- On the ChatGPT homepage, you will see a sign up button in the middle of the screen.
- Click the sign up button to start the registration process.

Step 3: Enter your NTC email and create a password

- You will be asked to enter your email and create a password for your ChatGPT account.
- Make sure you use your NTC email
- Choose a strong password that is at least 8 characters long and contains a mix of letters, numbers, and symbols.

Step 4: Verify your email and activate your account

- After you enter your email and password, you will receive a verification email from ChatGPT.
- Open your NTC email inbox and look for an email from ChatGPT with the subject "Verify your email address". You may need to check your junk mail.
- Open the email and click the link inside to verify your email and activate your account.
- You will be redirected to the ChatGPT website and see a message that says "Your account is activated".

Step 5: Sign in to ChatGPT

- Now that you have created and activated your account, you can sign in to ChatGPT and start using the service.
- Go back to the ChatGPT homepage and click the sign in button on the top right corner.
- Enter your NTC email and password that you used to sign up.
- Click the sign in button to log in to your ChatGPT account.
