Test Options - Show Test Results and Feedback to Students

After students complete a test, test results and feedback are available to students. By setting up rules, you can set the release of progressive feedback to keep test results secure and prevent cheating.

For example, you can choose **After Submission** to present **Score**, **All Answers**, **Correct**, **Submitted**, **Feedback**, and **Show Incorrect Answers** to show students their scores along with all answer options. If selected, the options also allow students to see their submitted answers marked as correct or incorrect and any feedback you provided.

To set **Test Results and Feedback to Students** follow the directions below:

- Access the **Test Options** for the test by clicking on the down arrow next to the test and selecting **Edit the Test Options**.
- Scroll down to **Show Test Results and Feedback to Students**.

6. Show Test Results and Feedback to Students

Test results and feedback are available to students after they complete a test. Set up to two rules to show results and feedback. Rules occur based on the events selected.
