

Blackboard – Assignment Grades

Review a Graded Assignment Submission Inline

Assignments are not graded automatically. Your instructor needs to grade each assignment. You can review the information provided by your instructor on the assignment's **Review Submission History** page.

You can view your grade and any annotations your instructor made to your assignment submission directly from the assignment attempt without downloading the file.

Inline Viewing Supported Formats

Submitted files open within the grading screen. Supported document types that are viewable in the grading screen are Word (DOC, DOCX), PowerPoint (PPT, PPTX), Excel (XLS, XLSX), and PDF. Original formatting and embedded images are preserved.

To access the **Review Submission History** page, follow the directions below.

1. The Review Submission History page can be viewed by:
 - a. From My Grades by clicking on the assignment title.

- b. By clicking on the assignment.

 Assignment for Chapter 1 Attached Files: Chapter 1.docx (11.19 KB) Please download and complete the attached assignment. When you are finished please submit the document here.
 Technology Instruction Guide Project
 Chapter 1 & Chapter 3 Section I Quiz

- Once on the Review Submission History page, you can view the document submitted, see your score and any comments your instructor has added.
- Users can click on the Comments & Markups button to view a column of any instructor comments or markups.

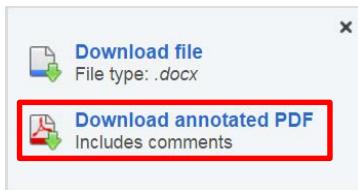

Review Submission History: Technology Instruction Guide Project

The screenshot shows the 'Review Submission History' interface for a project titled 'Technology Instruction Guide Project'. The submission is a Microsoft Word document titled 'recording a youtube video with webcam.docx'. The document content is a guide on how to record a YouTube video using a webcam. The submission details include a grade of 18.00/20 and an attempt made on 4/22/16 at 8:58 AM. The comments section contains feedback from the instructor, with one comment highlighted: 'Overall good job on this. Easy to follow directions for setting up and using a YouTube account.' and 'The images could be a bit smaller to make the document more concise.' A red box highlights the 'Sign in' button on the YouTube video player embedded in the document.

- Students can enlarge the viewing area to better see any comments by clicking on the arrows located near the top of the grading area. Clicking them again returns the view to its original view.

The screenshot shows the 'Assignment Details' view for the same project. It displays the grade (20.00/20), attempt (11/30/16 9:30 AM), submission file ('recording a youtube video with webcam.docx'), and comments section. The comments section contains the same feedback as the previous screenshot. Two red boxes with arrows point to the interface elements: one points to the top right corner of the grading area with the text 'Click to maximize/restore view', and another points to the top right corner of the comments section with the text 'Click to expand/collapse grading area'.

- To download the **inline grading view** and then **print**, click the **download button** located at the top of the page.
- Users can choose to download the file or the file with the annotations present.

- For best results, view the annotated version using your computer's PDF reader instead of viewing the document with a browser.

Review Submission History:

The screenshot shows the 'Review Submission History' interface again. A red box highlights the download button in the top right corner of the submission history area.
